WHO

This is the annual "*culminating state event*" for the students of schools participating in the National Archery in the Schools Program (NASP). Only students that attend schools teaching NASP as part of their in-school curriculum are eligible to participate in this event. *See below for complete participation rules.*

PARTICIPATION

- 1) Every archer must attend a public, private, charter, magnet, or home school that conducts NASP lessons during normal school hours.
 - a) After-school-only archery programs or clubs are ineligible.
 - b) A signature from school administration verifying that the school teaches NASP as part of the in-school curriculum, minimum of 8-10 contact days, will be required prior to the start of the tournament.
 - c) Tournament officials may choose to contact the principal to confirm more information.
- 2) A student who no longer attends a NASP school due to having moved, promoted, etc. is ineligible to participate in this tournament until/unless the student's new school joins NASP and may then only represent their NEW school.
- 3) A student who is home-schooled may only participate if the home school has enrolled in NASP and provides NASP archery lessons, by NASP certified instructors. This also applies to other schools that are without buildings or campuses, such as certain "virtual" schools.
 - a) If a local homeschool group meets for classes (Example: a group that meets for Math, English, Science, Physical Education and other non-archery classes), the students from that homeschool group can join together to form an archery team if approved by the State NASP Coordinator.
 - b) The homeschool group must contact their State NASP Coordinator to inform the Coordinator of their intent to form a NASP archery team. State Departments of Education maintain lists of public and private schools that coordinators can use to determine valid schools. Homeschool groups are not included in these lists. This will allow Coordinators to validate and be aware of the homeschool groups and their NASP archery teams.
 - c) If a student is not a member of a homeschool group that meets for school lessons other than archery, the student can still participate as an individual, but not as a part of a team.
 - d) A homeschool school name must include the word "Homeschool" in the name.
 - e) The homeschool group must present NASP lessons as a portion of an in-school classroom curriculum, such as in Physical Education. To meet the same requirement as public schools the lessons should include students that are not on the archery team, where possible. If Physical Education is not offered, NASP lessons could be included in Math, Science, or any other in-school class curriculum.
 - f) EXCEPT: Some home-schooled students receive Physical Education from public or private schools.
 - i) If the home-schooled student receives NASP lessons while attending classes at a NASP public or private school that student may participate for the home school or the school where the archer receives NASP classes IF the school agrees.
 - ii) The home-schooled student is ineligible if archery lessons are afterschool-only.
- 4) Only students who are in grades 4-12 by the date of the tournament may participate.

- a) A student at a NASP school who has graduated early during the current school year may, at the discretion of the school Principal, participate.
- 5) If a student is disqualified for cheating at a local or regional tournament, the student is ineligible to participate in the NASP State Tournament until such time the student has regained good standing in such tournaments.
- 6) Competitive Divisions are
- Elementary (4th & 5th grades).
 - Middle School (6th - 8th grades).
 - High School (9th - 12th grades).
- 7) All archers compete for individual rank within a Competitive Division based on their grade level.
- 8) NASP archery teams must contain 12-24 students, at least 4 of which must be of the opposite gender.
- 9) If the school is single gender, the school can request (to their State NASP Coordinator) to compete as a single-gender-only school.
- 10) If the school contains fewer than 150 students (*combination of grades 4-12*) the team may be comprised of students from their school and/or other participating NASP schools in the same city, county, or school district based on the rules below. Eligible NASP schools (or divisions) can join together until a total of 150 NASP eligible students (combination of grades 4-12) is met:
- A school with high school students only (grades 9-12) with fewer than 150 students can add archers from another NASP high school, middle school or elementary school.
 - A school with middle school students only (grades 6-8) with fewer than 150 students can add archers from another NASP middle school or elementary school in the same city, county, or school district.
 - A school with elementary students only (grades 4-5) with fewer than 150 students can add archers from another NASP elementary school in the same city, county, or school district.
 - A school with multiple divisions within their school:
 - If the high school division has less than 150 students, that division can add archers from lower divisions within their school or high school archers from another school in the same city, county, or school district.
 - If the middle school division has less than 150 students, that division can add archers from lower divisions within their school or middle school archers from another school in the same city, county, or school district.
 - If the elementary division has less than 150 students, that division can add elementary archers from another school in the same city, county or school district.
 - A school (or division within the school) with more than 150 NASP eligible archers may not add archers to their team from another school or division within their school.
 - If a student shoots up for a higher division team, that student will be competing for team rank in that older division, but retain individual rank according to the archer's actual grade.
 - Unless utilizing this "small school rule", students may only shoot on a team at the NASP school they attend.

- 11) When building a team for the state tournament: A student, who by grade would be in a younger division, may 'shoot up' for a team in an older division.
 - a) To 'shoot up' the student must be from the same school or same local system and both schools offer NASP as part of the school's curriculum.
 - b) Unless 'shooting up', students may only shoot on a team at the NASP school they attend.
 - c) Team Rank: a student shooting for a higher division team will be competing for team rank in the older division.
 - d) Individual Rank: a student shooting for a higher division team will still be competing for individual rank among students in his/her actual division.
- 12) NASP is a school program. If a school administration deems a student unsuited to represent the school, NASP will abide by the decision.
- 13) Schools unable to field a team will register as Individuals and compete for individual rank.
- 14) Archers may be brought by teachers and/or associated coaches.
