

# **Red Fox WMA Brushing Projects Update**

Jeff Schuckman, Phil Chvala, Rebecca Munter

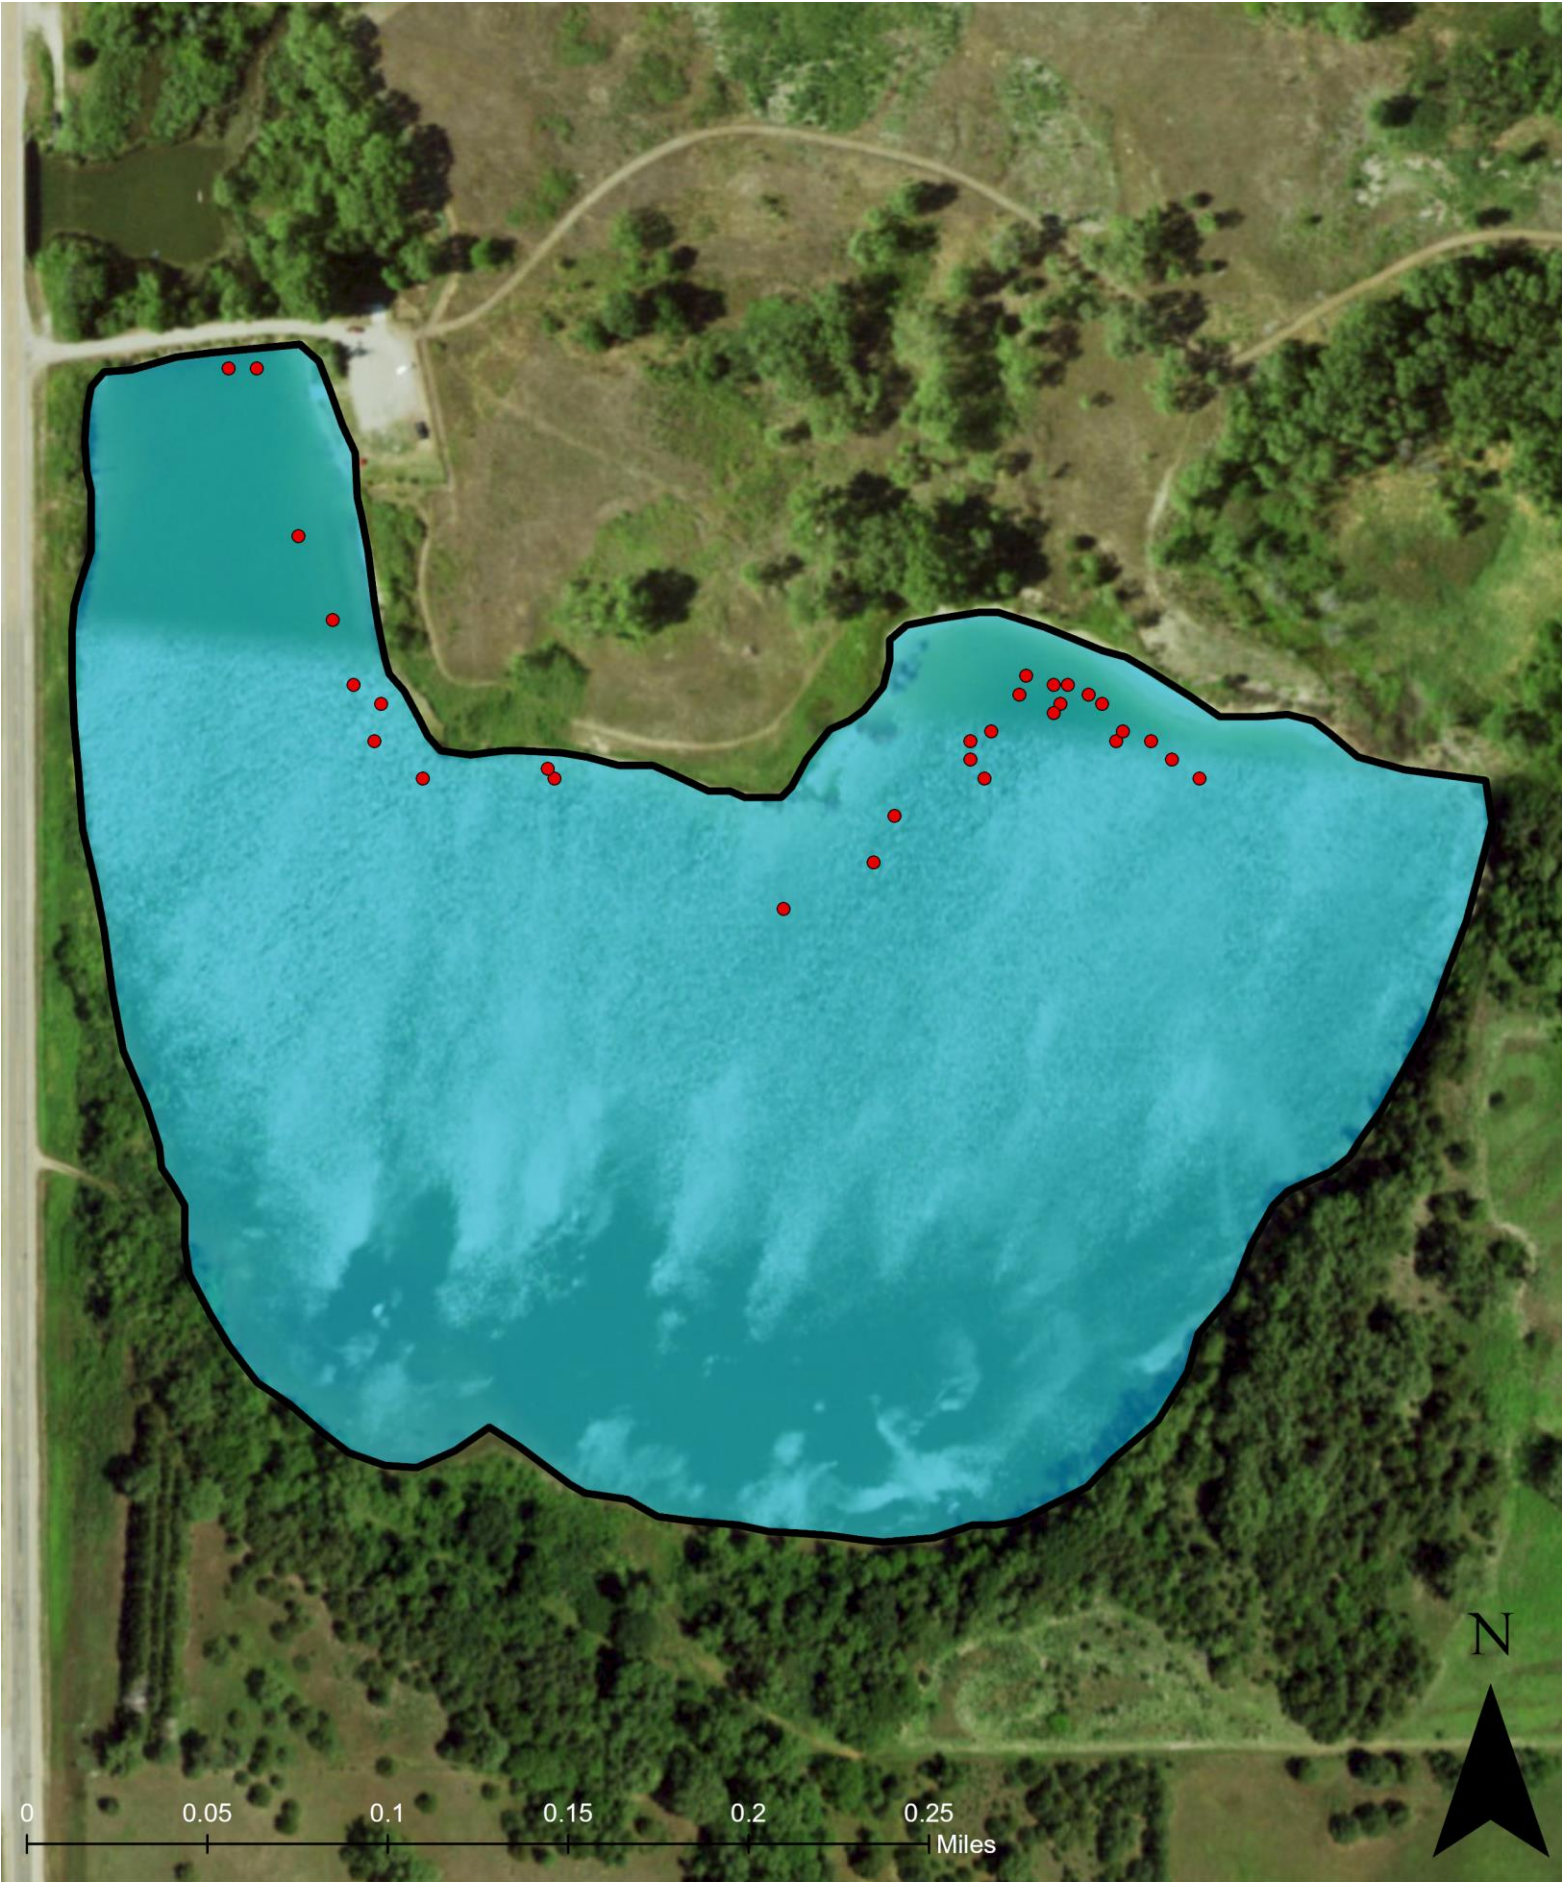

Northeast District, Fisheries Division

Nebraska Game and Parks Commission

February 2025

At Red Fox, a mix of cedar trees, Christmas trees, and hardwoods were placed by Game and Parks biologists in 2025. The trees were cut by wildlife biologists and placed by fisheries biologists. Approximately 30 trees were added to the lake. Below is an overview of the project, including the map locations of the structures. (Please note that the structure coordinates are approximate and serve as general guides, as the structure may shift. In addition, water levels fluctuate throughout the year; the trees were added at low water levels and may be dry until sufficient rain.)
